Buy in the Beautiful Gray Tract

One of the best subdivisions in San Mateo County. No adobe; the finest of soil—loam and gravel; beautiful oak trees, and situated on the Woodside road. This road is soon to be made into a beautiful boulevard. NOW is the time to buy. Only a few blocks from the new electric line. Don't let all outsiders come here and buy up the best. These lots are all 50x109 feet; no 25-feet frontage here. I want you to call at the office and I will show you what these lots are, and I would like to see our own people get in on the ground floor—not all strangers. About forty of these lots have been placed on the market for $250 each; 10 per cent cash, remaining payments to suit purchaser.

THE WORST CLIMATES.

Three Places Where Weather Conditions Are Unbearable.

"Speaking of rank climates," said a globe trotter, "I have experienced the three worst.

"Of these three unspeakable climates I give the palm to the strait of Magellan. There is rain on an average 250 days in the year. The wind blows a hurricane from January to December. The thermometer never rises much above the freezing point—a year round of raw, bitter days of rain and snow.

"Next comes Sierra Leone, on the African west coast. That low lying marshy region has an average temperature of 81 degrees, and the annual rainfall is 189 inches—enormous! There are, too, the 'smokes.' These are mists, smelling like oyster mud, that rise continually from the marshes, giving marsh fever to nine out of ten of the white men that breathe them—a year round of hot and sticky days, with vile smelling clouds of mist and whirring clouds of mosquitoes.

"Last come the high tablelands of central Asia, where the lack of moisture in the air makes the days Saharan and the nights arctic—days like a redhot furnace, nights like a January blizzard. Before this range of temperature no human constitution can stand up."—Cincinnati Enquirer.

"And is this to be your last tour of America?" asked the reporter.

"I hope not," answered the mature star of the dramatic world.

"But it's advertised as a 'farewell.'"

"Yes, a mere farewell. It's not a farewell farewell, you may notice."—Philadelphia Ledger.

D. E. O'KEEFE.....EDITOR AND PROPRIETOR

The hoarder of money is one of the worst representatives of frenzied finance.

Between state control and federal regulation the railroads hardly know which way to jump.

It is a great comfort to know that every dollar of the currency of the United States is worth 100 cents in gold.

In discussing the affairs of the United States it is best to be optimistic. It has been that sort of a country from the start.

Meets With Approval

The re-election of Mayor Taylor meets with the approval of the citizens of our community, as our prosperity is bound up with that of the big city at the head of the Peninsula. After confidence in money circles has been restored it is expected that much property will change hands and much building will be done. Mr. Taylor's election will inspire confidence with the moneyed men of the East and capital will come to the coast for building San Francisco and when the City is prosperous the Peninsula is certain to feel the beneficial effects. The future of San Francisco is bright and will double the population within the next ten years.

Holidays Are Still On

SACRAMENTO, Nov. 6.—In regard to queries from all parts of the State, Governor Gillett today said that it is almost certain that the holidays will continue all this week.

To check a cold quickly, get from your druggist some little Candy Cold Tablets called Preventics. Druggists everywhere are now dispensing Preventics, for they are not only safe but decidedly certain and prompt. Preventics contain no quinine, no laxative, nothing harsh nor sickening. Taken at the "sneezing stage" Preventics will prevent pneumonia, bronchitis, la grippe, etc. Hence the name, Preventics. Good for feverish children. Forty-eight Preventics 25 cents. Trial boxes 5 cents. Sold by P. A. Ryan.

CATARACT OF THE EYE.

How the One It Attacks May Watch the Obstruction Grow.

Cataract is said to be due to the gradual deposition of oxalate of lime in the substance of the crystalline lens, at first in small spots or streaks, sometimes in one part and sometimes in another. The deposit gradually increases until it penetrates the whole of the lens, causing blindness. The remedy, then, is to remove the lens, and after its removal the patient needs a substitute in the form of highly magnifying spectacles.

All that is necessary to enable a patient to see his own cataract for himself is a piece of card and a needle. A visiting card will do very well. Pierce a clean round hole near the middle of the card and hold the card up to the light close to the eye, looking preferably in the direction of a piece of blue sky. With the card near to the eye the patient will not see the small hole pierced by the needle, but he will see a comparatively large, faintly illuminated field with his cataract projected upon it. He is, in fact, observing the shadow cast by his cataract on the retina at the back of his eye. With a small puncture in the card the shadow so thrown is comparatively sharp. But with a normal eye an evenly illuminated field or clean disk will be seen. The patient may thus map down his own cataract and settle for himself whether it is extending and whether he will have an operation or not.

The Traveler's Tree Myth.

Among the romantic stories of far-off lands that have long maintained their circulation and commanded more or less belief is that of the "traveler's tree," credited with possessing a reservoir of pure water fitted to save the lives of wanderers in the desert. G. F. Scott Elliot declares from his own experience that the tree grows only in the neighborhood of swamps or springs and that, although it has a considerable amount of water in a hollow at the base of its leaf, the water possesses a disagreeable vegetable taste and of course is inferior to other water to be found in the vicinity.—Youth's Companion.

The new time schedule of the Southern Pacific goes into effect tomorrow. There is no material change, however, commuters should secure a time table and learn when their train leaves.

Miss Katie, oldest daughter of Mr. and Mrs. Con Maloney, is very low. Her serious illness is giving her parents and friends much alarm.

The water in Felt Lake has receded to within five feet of the bottom. Owing to the mud clogging the siphon, it will probably take another day on two to complete the draining of the reservoir. It will then be possible to search for the shotgun which Chester Silent is supposed to have dropped into the lake. It is feared, however, that by this time the gun has sunk in the soft mud which covers the bottom of the lake to a considerable depth. If such is the case it will be necessary to dredge the floor of the reservoir.

Mrs. Fife and her daughter, Mrs. Foster, have returned to the City for the winter months.

It is estimated that fifteen thousand people will witness the game of foot ball on the Stanford gridiorn this afternoon.

Father McDonald of San Francisco is a guest of Father Lyons. Accompanied by J. B. Lynch the two clergymen went rail hunting on the marsh yesterday and secured the bag limit.

C. W. Smith and wife left during the week for San Francisco to spend the winter. As a rule Mr. Smith usually remains here but the new Redington building is finished and he wants to be in touch with the moving of the large stock of drugs which will commence shortly.

A fire alarm was rung in from the residence of E. J. Pringle at Fair Oaks Thursday. The fire department responded promptly and when they arrived at the house smoke was discovered in one of the rooms of the second story. A few of the planks of the floor were taken up but no fire was discovered.

News comes from Auburn to the effect that Smyke Parker is very low and may not recover. This will be painful news to his numerous friends here.

There need be no scarcity of work in thisvicinity. The Kearney Bros. who are doing the grading for the Dumbarton road are in town daily looking for men. They pay good wages. All hands work on Sunday so that the work may he rushed.

The Ladies Auxiliary held its second meeting at the home of Mrs. Jas. T. O'Keefe Thursday and fifty members were present. A good deal was accomplished in the way of sewing. The movement is getting the support of all the ladies of the parish and that is will be successful there can now be no question. The donations both in cash and articles for sewing and the like were large and encouraging A good start has been made and it is to be hoped the good work will continue. After the work of the meeting had been completed a very enjoyable hour was spent in the dining room of Mrs. O'Keefe. The next meeting will be held at the Parochial Residence. The first Thursday in each month will be the regular monthly meeting days and all must be on hand with their sewing and in the meantime all donations may be left or sent to Mrs M. F. Duff, treasurer, or Mrs. Jas. T. O'Keefe, financial secretary.

Manuel J. Oliver and Frank Oliver yesterday began an action in the Superior Court of Santa Clara County asking for adecree annulling a deed to ten acres of land in the Arques subdivision. The plaintiffs state that they are the sons and heirs of the late Manuel Oliver, who died on December 30, 19066. Two months before his death, they claim, while under the undue influence of Amelia Oliver, he signed a deed to the property, naming her as grantee. The deceased had been addited to the use of intoxicating liquors for a long time prior to the signing of the deed, and the plaintiffs declare that his mind had beome weakened. He did not know the nature of the act he was performing, they aver, and he never intended that Amelia Oliver should be the possessor of the land. The property is of great value, plaintiffs allege, and they request that the defendat's deed be cancelled.

Edward F. Fitzpatrick and R. R. Syer are the attorneys for the plaintiffs.

Baldwin and Howell the Buyers

As stated last week the C. A. Hooper property has been sold.

We now learn that Baldwin and Howell are the buyers. These people are veterans at subdividing, they have made a great sucess in subdividing Hayward's Park, San Mateo, and now look upon Redwood as the next furtile field and upon the Hooper property as particularly attractive owing to its central location and having four stopping stations of the Peninsular railroad which traverses it. Eagle Hill too is a magnet initself—and ere long will be dotted with beautiful homes, several San Francisco people have already applied for acreage on this hill and will make their purchase as soon as it is on the market.

It would seem as if the day of "adobe" fear is past—the b often much despised soil will in course of time prove to be the most desired, after it has had its treatment of macadam, concrete and loom filling.

Tom Surprises His Friends

Thomas M. Horgan and Mrs. Theresa Hogan were quietly married in San Jose last Friday. The wedding comes as a surprise to their numerous friends in Redwood City. The groom has spent the greater portion of his life here where he is well-known for his honesty and integrity and industry. The bride has resided here with her mother since the earthquake but was well known in this city long before that time having visited her cousin, Mrs. Kearse, on many ocasions for a number of years. She is a sister of Frank J Kearse, the San Francisco attorney. She spent her girlhood at Rio Vista where her father was a prominent farmer. The young couple have returned from their honeymoon trip and are at home to their friends at the residence of Mr. Horgan on the Woodside road.

ROOSEVELT AVENUE MACADAM

May Not Come Up to Test as Required by Specifications. Warns Residents

Being one of the Roosevelt Avenue community I would like to call the attention of the other residents to the fact that they must, collectively, or individually supervise the work they are paying for, if they stand aside and raise no objection they can be quite sure their interests will not be considered by any other party as they ought to be. It is for them to see that the formation when rolled prior to putting on the rock, is on the grade. If the grading is correct, and properly done, there can be no difficulty in ascertaining that the full amount of rock is put on when the job is completed—from the Surveyor's stakes. The only thing then will be to determine that those stakes have not been tampered with, by being driven in deeper. Again, now is the time to see whether the rock will come up to the test required by the specification, because it is well known that rock from the same locality has failed to do so in the past and cannot now be used on properly supervised work. The Town Trustees, will, I imagine, get it tried, if requested to do so. If there is any doubt of the rock, at a later date, not being of a uniform quality, another trial can be made. It will too late to raise objections to the grading or quality of the rock when the work is completed. Now is the time whilst it is in progress and the thing can be remedied. In other contracts it has not been allowed to cart stuff away at the Contractor's own sweet will—is that privilege granted in this case? and, if so why?

This is no hardship on the contractor, because he knows from the specifications what is required of him and therefore makes his bid accordingly, it now therefore behoyes those interested to "trust no man" but see they get what they pay for.

A Roosevelt Avenue Resident.

"THE NEW DOMINION"

Clay Clement's German Comedy at the Alhambra Next Week

Next Monday the Max Steinle Company will open a three-night engagement at the Alhambra, and Mr. Steinle and his popular company will present for the first time in Redwood City, on that night, Clay Clement's great German comedy-drama, "The New Dominion," in which Mr. Steinle appears at his very best in the roll of the German botanist, a character made famous by the author. Mr. Steinle was for several seasons stage director for Mr. Clement and personally staged "The New Dominion" in many of the leading theaters in this country. He has carefully studied the acting of Mr. Clement in the character of the German, and, being familiar with the smallest detail of the play, we may look forward to a splendid performance.

On Tuesday night "The Strange Adventures of Miss Brown" will be presented. This farce is a good one and a hearty laugh is surely in store for all who see the play. Eddie Foy, the celebrated eastern comedian, was the first to be seen in this play, and it is claimed by both public and press who have seen Mr. Steinle in the title role of Miss Brown that he is a close second.

Wednesday night the company will close its engagement with the great eastern success comedy-drama "Dangers of New York."

The Santa Cruz Sentinel of the 3d instant has this to say of the play:

"Dangers of New York," this week's offering at the Swain by the Steinle company, apparently pleases, with its thrilling scenes, from the way the seats are taken and the amount of applause that greets the performers. Amy Glendon, the heroine, which part is taken by Miss Clark, gives her a chance for some good acting, which opportunity she does not fail to take advantage of. Max Steinle, as Clip, and Alice Condon, as Nellie (his sweetheart), are typical Bowery specimens, and their love scenes provoke prolonged laughter.

The prices are 25, 35 and 50 cents and reserved seats may be obtained at Ryan's drug store.

Will Supply Water

Articles of incorporation of the South San Francisco water company, to supply San Mateo County, were filed with the county clerk Tuesday last. The capital stock of the corporation is $150,000 and the directors are: Leroy Hough, W. J. Martin, George H. Chapman, E. R. Lilienthal and Jesse W. Lilienthal, each of whom subscribes for one share of the value of $100.

Hog Cases Go Over

The cases of twenty-one hog ranchers in the north end of the county who had been arrested on the charge of violating the garbage ordinance were brought for trial before Judge McSweeney Thursday in South San Francisco, but were postponed until November 12th.

Miss Alice Curran has returned from a weeks end visit to Miss Edna Lloyd at her San Bruno home.

By all means take a look at the Horton Galvanized Rotary Washer the next time you are anywhere near a hardware or general store. It will give you new light on the wash-day problem.

Here's a washer that washes clothes clean in minutes where it would take hours in the old way, and it is geared up so that you can turn the handle slowly and easily while the suds are being forced through the clothes at top speed. After seeing the HORTON you will realize how much you didn't know about washing the dirt out of clothes without wearing yourself out. Ask the dealer to show you the

Father Murders Son

Death at the hands of his father was the deplorable fate of Henry Curtis Jr. of South City, last week The following account is published by the South San Francisco Enterprise:

As a culmination of several quarrels and fights, Henry Curtis, Sr., shot and killed his son Henry Curtis, Jr., late Friday afternoon on the county road in front of the Sierra Point House, to the northeast of South City:

The bullet took effect in the breast of the son, and in a few minutes he was dead.

News of the shooting was brought to town by Tom McCue, driver for Coal Dealer Carmody.

Coroner H. G. Plymire and Judge A. McSweeney immediately repaired to the scene, where the father was placed under arrest and later taken to the county jail at Redwood City by under Sheriff Bartlett, who had been notified of the shooting and who was accompanied by District Attorney J. J. Bullock.

The body of the son was brought to South City and an autopsy held by Dr. D. B. Plymire last evening. It was found that death was caused by profuse hemorrhage brought about by the bullet piercing the lungs.

The date for the preliminary examination of Curtis had not been set at the time the Enterprise went to press.

District Attorney Bullock says that the prisoner has given him a written and signed confession in which he says that his son had never raised his hand against him and that there was no reason for the shooting. Furthermore the prisoner says that at his arraignment he will plead guilty to the charge of murder.

In spite of adverse reports the people of the north end sympathize with the prisoner as he has always borne the best of character while the son was a hard drinker and very abusive to his father, often trying to choke him and at one time being suspected of shooting at him. They have had numerous quarrels but they have been caused by the son's bad behavior. Curtis is very much downcast and deeply deplores his action. He purchased a burial lot and ordered the decent interment of his son. The inquest has been postponed until after the expiration of the holidays.

Carroll Tract Subdivided

Henry D. McGarvey has subdivided blocks 7 and 8 of the eastern addition to Redwood City, and put them on the market The land is just inside the boundary line of this city, and the lots are 50 feet by 100 in size, twice that of the lots of the new tracts opened outside the town limits. Besides this, water and sewer pipes are already laid, making this a better buy than any others, while the price asked is a great deal lower.

A new postoffice has been established at Salada Beach, a new town on the Ocean Shore railroad. J. W. Barry is the new postmaster.

What the Kidneys Do

Their Unceasing Work Keeps Us Healthy and Strong

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

W. J. McHarvey, living at 35 Claremont st. Redwood City, Cal., says: "I have known and have been an appreciator of Doan's Kidney Pills for a long time, and am in a position to say that they act up to every claim made for them. I am perfectly willing to have my name used as an endorser of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's, and take no other.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves — re-establish them as needed, with
